## Did You Know?

Wombats can run up to 25 miles per hour!

## Did You Know?

Wombats have a pouch, like a kangaroo. A wombat's pouch is backwards-facing so they don't flick dirt on their babies when they're digging.

## Did You Know?

An echidna has spines all over its back, like a hedgehog or porcupine.

## Did You Know?

Echidnas lay eggs. Their babies are called 'puggles'.

## Did You Know?

Crocodiles leave their jaws wide open to cool themselves.

## Did You Know?

Crocodiles have the strongest bite of any animal in the world.

## Did You Know?

Kookaburras are known for their call, which sounds like someone laughing!

## Did You Know?

Galahs can often be found in flocks of between 500 and 1000 birds.
