

Design a Bike for the Future

If you could design your own bike, what features would it have? Use the tip list below and add to the bike sketch to design your perfect bike for the future.

Tip List

- What technology would you like on the bike?
- It's a bike for the future – what tech would you like to see invented for it?
- Keep your bike sustainable – think about recycled goods and renewable energy.
- Think about your hobbies and interests – create a bike ideal for **you!**
